

Benhaven

Individual and Family Support

Benhaven has given my child an avenue to build lifelong relationships with peers. Benhaven has also taught my son living skills beyond what I ever could have imagined. I honestly don't know where we would be without the staff and peers that we have met along the way.

The Individual and Family Support (IFS) program provides in-home and community-based support to help individuals improve their quality of life, and help families learn skills to assist individuals in their daily lives.

SERVICES

- Behavioral supports
- Functional assessment
- Individual supports
- Independent living skills
- Activities of Daily Living Skills
- Life skills coaching
- Job coaching
- Employment services
- Mentoring
- Individual day supports
- Support for children and adults served through DSS Autism Waiver
- Social and recreational opportunities
- Opportunities for physical fitness

The IFS program has helped individuals build strong long term relationships with peers and learn the skills to more successfully navigate the community they call their own using Positive Behavioral Supports.
